

Brite-Line® 100 Removable Blackout

Lets work crews set up temporary lanes in less time — for less cost.

Removable BLACKOUT Pavement Masking Tape helps **prevent motorist confusion caused by temporary lane changes** and reduces hazards to work crews in construction zones. Tape applies easily over existing road markings without using heat or solvents. When construction is completed, **tape lifts off easily and quickly** ... permanent road markings underneath are clearly visible and undamaged.

Product Benefits:

- Eliminates expensive, time-consuming mechanical removal of permanent lane markings.
- Meets or exceeds all required anti-skid standards.
- Design based upon 25 years of applied research and extensive field testing.
- Readily available from nationwide distribution centers in standard sizes.

Application Benefits:

- Unique pressure-sensitive adhesive eliminates need for extra steps.
- Lifts up intact or in large pieces without damage to permanent markings underneath.
- Construction zones may be opened to traffic immediately after application.

Material Benefits:

- Available in matte black conforming to standard highway marking color — blends with color of road surface.
- Thoroughly blended pigments produce long-lasting and weather-resistant tape.
- Roll goods available in various widths, to temporarily mask a variety of roadway markings.

Manufactured in the U.S.A.
