

Deltaline® Is the Original — designed for long lasting reflective performance and dramatically improved nighttime visibility on both wet and dry pavements. The patented retroreflective system utilizes a unique ridged pattern and hybrid ceramic microspheres to guarantee bright, safer lane markings that outlast and outshine all others.

Product Benefits:

- Superior reflectivity for the life of the line provided by ridged profile design.
- Superior durability and bead adhesion due to high performance polyurethane topcoat.
- Exceptional nighttime visibility on both wet and dry pavements.
- Greater visibility from all viewing angles.
- The BTR ridged profile design provides superior black out characteristics for all light conditions.

Application Benefits:

- Greater performance in extreme temperatures provided by a specially designed adhesive system.
- XRP and HDX tape can be inlaid while paving due to heat stable raw materials.
- Construction zones may be opened to traffic immediately after application.
- Contractor installation support from a comprehensive field service organization.

Material Benefits:

- Weather resistant raw materials provide long lasting color and visibility
- Roll goods available in various widths and lengths, including metric sizes
- Available in symbols, legends and custom orders.

Manufactured in the U.S.A.

del-ta [del-tuh] –noun

1. the fourth letter of the Greek alphabet ($\Delta\delta$).
2. the engineering symbol of change
3. indicates the difference in height between two parallel planes

Del-ta-line – The original profile pavement marking tape

Deltaline® XRP

Extended reflective performance pavement marking tapes.

Deltaline® HDX

High durability intersection tapes for crosswalks

Deltaline® TWR

Wet reflective removable pavement marking tapes.

Deltaline® BTR

Black temporary removable tapes for masking existing lines.
