Deltaline® Is the Original — designed for long lasting reflective performance and dramatically improved nighttime visibility on both wet and dry pavements. The patented retroreflective system utilizes a unique ridged pattern and hybrid ceramic microspheres to guarantee bright, safer lane markings that outlast and outshine all others.

**Product Benefits:**
- Superior reflectivity for the life of the line provided by ridged profile design.
- Superior durability and bead adhesion due to high performance polyurethane topcoat.
- Exceptional nighttime visibility on both wet and dry pavements.
- Greater visibility from all viewing angles.
- The BTR ridged profile design provides superior black out characteristics for all light conditions.

**Application Benefits:**
- Greater performance in extreme temperatures provided by a specially designed adhesive system.
- XRP and HDX tape can be inlaid while paving due to heat stable raw materials.
- Construction zones may be opened to traffic immediately after application.
- Contractor installation support from a comprehensive field service organization.

**Material Benefits:**
- Weather resistant raw materials provide long lasting color and visibility
- Roll goods available in various widths and lengths, including metric sizes
- Available in symbols, legends and custom orders.

Manufactured in the U.S.A.
